

CUSTOM MURAL PRICING & INVESTMENT GUIDE

Transparent pricing, professional execution, and unforgettable transformations.

LAZYPAN ART

Every mural created by Lazyman Art is custom-designed and hand-painted to fit your specific vision, space, and wall dimensions. Below is a breakdown of our pricing structure, estimated project tiers, and popular service packages.

HOW WE CALCULATE YOUR INVESTMENT

Our mural projects are priced dynamically based on four core factors:

- **Square Footage:** Total surface area (typically \$15 to \$40+ per sq. ft.).
- **Design Complexity:** Highly detailed line work, intricate lettering, or realistic portraiture vs. bold color blocks and simple shapes.
- **Surface Texture & Access:** High exterior walls requiring scaffolding or lifts vs. smooth interior drywall.
- **Location & Environment:** Interior feature walls vs. weather-sealed exterior facades.

Project Minimum: To cover initial design mockups, material preparation, travel, and site setup, our baseline project minimum fee is **\$1,000**.

ESTIMATED PROJECT TIERS
